## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance: prior art of record doesn't teach that the server or dispatcher profiles all the user stations within the network, a corresponding mail would be selected based on the user's profile, and such mail having the desired content from the user profiles would be sent to one of the company, for instance, that is associated with the user station.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Saito et al (US006972669B2) teaches on-vehicle breakdown-warning report system. White et al (US006745153B2) teaches data collection and manipulation apparatus and method.
